

Authority to Copy QikKids service information to New owner

This form is required when services are buying/taking over an existing child care service and are requesting permission from the old owner to access their QikKids Web database as a part of the migration. Since the database is hosted in the QK Technologies data centre, the seller must grant permission for QK Technologies to access the data and provide a copy of the information to the new owner.

******* Orders will not proceed until this authority is returned *******

Please complete the form below including getting sign off from the seller/licensee and Print and Fax/Email Completed Form to 07 3041 0326 or orders@qktech.com.au.

Please ensure you do not end your bookings before the Migration takes place.

For customers purchasing a centre with an existing QikKids Web database

I, _____, the current QikKids Licensee, and authorised representative of
< Insert Name of current licensee >

_____, hereby authorise QK Technologies to access and extract the
<Insert Company Name of current licensee>

data for _____ with QikKids Support ID* _____ - _____
<Insert Centre name>

from our database and provide a copy to _____
<New client name>

on ____ / ____ / ____
<Insert Date of Transfer>

I also authorize for Parent Direct Debit information to be transferred **if possible**: YES NO

Signature of current QikKids Licensee: _____

Contact Number (mobile preferred): _____

Date: ____ / ____ / ____

Centre Address Details:

*To find the QikKids Support ID, log into the QikKids centre and at the top of the screen you will see the Support ID in the format of (XXXX-XX). Supplying this ID will ensure the correct centre information is extracted.

** If more than 1 centre is involved in the transfer, please complete multiple forms or provide a separate list of centres including Centre name, address, QikKids Support ID.
